NOTES

1. The symbol **○** represents any Lao consonant character.
2. Several rare or obsolete characters, such as those romanized **s**, **t**, **tsa** and **l**, have been omitted from the tables. Also omitted are a few character combinations, such as those romanized **th-n** and **th-m**.
3. Tone marks should not be romanized. For example ນາ, ນ່າ, ນ້າ, ນຶ້າ, ນໍ້າ should all be romanized **na**.
4. At the beginning of a word, ອ should not be romanized: ອີກ → **ik**. At the beginning of a syllable within a word, ອ should be romanized by a hyphen: ອາ → **Xa-Ém**, ອັນ → **Ban Kèng-l**. Note that in geographic names, the letter immediately following the hyphen should be capitalized. (See also the vowel table, rows 8 and 11.)
5. At the beginning of a syllable, the character ອ unaccompanied by a vowel or tone mark and occurring immediately before **gn**, **n**, **m**, **r**, **l**, or ວ **v** should generally not be romanized: ຫລວງພະບາງ → **Louangphabang**, ຫຍ້າ → **gna**, ແຫນ → **nè** (but compare ແຫນ → **hèn**). Note that the character combinations ອ and ອ are often written in abbreviated form: **n**, **m**, and ອ **l**, respectively. In case of uncertainty as to pronunciation or syllable division, a reference source should be consulted.
6. The character ວ at the beginning of a syllable should be romanized **v**: ວັດ → **vat**, ທັນວາ → **thanva**. As the second character of a combination, ວ should be romanized **o**. A consonant combination at the beginning of a syllable in which the second character is ຣ **r**, ລ **l**, or ວ **o** should be romanized character by character, even where the second character ອ or ອ may represent no pronounced sound: ບ້ານວັດພຣະໄຊ → **Ban Vatphraxai**, ສູ້ສູນ → **Khlistsatian**, ສວຍ → **Soay**, ແຂວງ → **Khoèng**. In case of uncertainty, a reference source should be consulted. A vowel which is not represented in Lao writing occasionally occurs in the pronunciation of certain words. The presence of that vowel should be indicated in romanization by insertion of the letter **a**: ສວັນນະເຂດ → **Savannakhét** (also written ສະຫວັນນະເຂດ → **Savannakhét**, but compare ຊວງ → **Xoa**), ຂວາວ → **Khavao** (but compare ຂວານ → **Khoan**), ຕຣຶງ → **Taling**, ຖນົນ → **Thanôn**. The two words ສວ່ານ and ສະວານ are both romanized **savan**. A reference source should be consulted in case of uncertainty.

The character ວ at the end of a syllable should be romanized in the following manner. The syllables ືວ and ືວ should be romanized **iou**: ສິວ → **Khiou** , ຕິວ → **Tiou**. The syllable ືວ (Vowel table, row 9) should be romanized **oua**: ຈິວ → **Choua**. Otherwise, at the end of a syllable, ວ should be romanized **o**: ນາວ → **nao**, ແກວ → **kèo**, ດຽວ → **diao**.

7. The character ງ (see consonant character 8 and vowel character 10) is not used in syllable-initial position.
8. The character combination ຣ occurs at the end of a syllable in only a few words of foreign origin and should be romanized **r**: ເບີຣ໌ → **Beur**
9. The specific element in a geographic name should be written in Roman script as a single word, no matter how many meaningful elements it may contain. The generic term and a few other distinguishing words that modify the specific element should be separated by a space: ຫວຢປຣະລອງ → **Houay Pralong**, ບາງກອກ → **Ban Kèngmavo**, ມຸງເກົາຫລີ → **Muang Ou Nua**, ມຸງເກົາຫລີ ຫລີນສຸກ → **Muang Ou Tai, ບາຈຽງຈະເລີນສຸກ → Bachiangchaleunsouk**.
10. The reduplicating mark ັ indicates the repetition of a syllable: ແຊວ໌໌ → **xèoxèo**
11. This character is rarely encountered in current sources.
12. An inventory of letter-diacritic combinations, with their Unicode encoding, in addition to the unmodified letters of the basic Roman script is:

É (U+00C9)	é (U+00E9)
È (U+00C8)	è (U+00E8)
Ô (U+00D4)	ô (U+00F4)

13. The Romanization columns show only lowercase forms but, when romanizing, uppercase and lowercase Roman letters as appropriate should be used.
