**Strategic Export Controls: Country  
Pivot Report**

**1st January 2010 - 31st March  
2010**

**OCTOBER 2019**

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st January 2010 and 31st March 2010. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spread sheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spread sheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
<b>General</b>	OGELs	Not applicable
<b>Individual</b>	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for Goods covered by Council Regulation 1236/2005** (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 14. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

# Reporting

## Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

## Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELs, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Processing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3284	3215	69	0	2461	60	3683	90	16 days
- Permanent Standard	2705	2641	64	0	2051	59	3071	89	16 days
- Temporary Standard	304	303	1	0	217	62	332	94	15 days
- Transhipment	2	1	1	0	2	40	5	100	25 days
- Incorporation	272	269	3	0	191	66	274	95	14 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	1	1	0	0	0	0	1	100	51 days
SITCLs	31	28	3	0	20	36	43	78	36 days
OIELs	72	65	7	0	61	49	80	64	22 days
- Standard	56	49	7	0	42	41	57	56	47 days
- Dealer-to-dealer	8	8	0	0	9	90	10	100	6 days
- Cryptographic	7	7	0	0	10	83	12	100	13 days
- Media	0	0	0	0	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	1	1	0	0	0	0	1	100	43 days
Global Project Licences	0	0	0	0	n/a	n/a	n/a	n/a	n/a
OITCLs	3	3	0	0	2	25	6	75	43 days

### Table notes:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences.

Data in the first four columns are not based on the same licences as the rest of the columns in the table.

In the first four columns, counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

The processing statistics (in the other columns) are calculated based on all licences closed during the period. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page: <https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	56	0	0
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	0	0	0
EU GEA 003 (EU003) - export after repair/replacement	0	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	0	0	0
EU GEA 005 (EU005) - telecommunications	0	0	0
EU GEA 006 (EU006) - chemicals	0	0	0
Chemicals	0	0	0
Cryptographic Development	7	0	0
Export After Exhibition: Dual-Use Items	1	0	0
Export After Repair/Replacement Under Warranty: Dual-Use Items	20	0	0
Export For Repair/Replacement Under Warranty: Dual-Use Items	9	0	0
Dual-Use Items: Hong Kong Special Administrative Region	3	0	0
Open General Export Licence (International Non-Proliferation Regime Decontrols: Dual-Use Items)	0	0	0
Low Value Shipments	4	0	0
OIL and GAS Exploration: Dual-Use Items	10	0	0
Technology for Dual-Use Items	9	0	0
Turkey	4	0	0
X	5	0	0
Military and Dual Use Goods: UK Forces deployed in embargoed destinations	1	0	0

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Military and Dual-Use Goods: UK Forces deployed in non-embargoed destinations	8	0	0
Exports of non-lethal military and Dual-Use Goods: To UK Diplomatic Missions or Consular Posts	3	0	0
Access Overseas to Software and Technology for Military Goods: Individual Use Only	14	0	0
Export After Exhibition or Demonstration: Military Goods	12	0	0
Export After Repair/replacement Under Warranty: Military Goods	27	0	0
Export For Repair/Replacement Under Warranty: Military Goods	17	0	0
Exports or transfers in Support of UK Government Defence Contracts	11	0	0
OGL (Certified Companies)	0	0	0
OGL (Exports under the US-UK Defence Trade Co-operation Treaty)	0	0	0
OGL (International Non-proliferation Regime Decontrols: Military Items) (Rv)	0	0	0

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	9	£8,500,048
Total	9	£8,500,048

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£85,084
ML3	1	£950
ML4	3	£1,469,322
ML6	1	£5,918,000
ML11	1	£4,924
ML13	3	£939,623
ML22	1	£78,525
PL5017	1	£1,305
PL5035	1	£2,315

- A    assault rifles (30).  
      body armour.

- bomb suits.
- components for all-wheel drive vehicles with ballistic protection.
- A components for assault rifles.
- components for body armour.
- components for military firing sets.
- components for military improvised explosive device disposal equipment (2 licences).
- military communications equipment.
- military devices for initiating explosives.
- military helmets (3 licences).
- military motorcycles.
- mine detection equipment.
- A semi-automatic pistols (80).
- A small arms ammunition.
- A smoke hand grenades.
- technology for the use of unmanned air vehicles.
- A weapon sight mounts.
- A weapon sights.

A - Some or all of which were issued on appeal.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military improvised explosive device jamming equipment, components for test equipment for military improvised explosive device jamming equipment, military improvised explosive device jamming equipment, software for the use of military improvised explosive device jamming equipment, software for the use of test equipment for military improvised explosive device jamming equipment, technology for the use of military improvised explosive device jamming equipment, technology for the use of test equipment for military improvised explosive device jamming equipment, test equipment for military improvised explosive device jamming equipment
2 (Rv)	P	components for ejector seats, components for military parachutes, components for military training aircraft, ejector seats, military aircraft ground equipment, military distress signalling equipment, military parachutes, technology for the development of ejector seats, technology for the development of military aircraft ground equipment, technology for the development of military distress signalling equipment, technology for the development of military parachutes, technology for the development of military training aircraft, technology for the production of ejector seats, technology for the production of military aircraft ground equipment, technology for the production of military distress signalling equipment, technology for the production of military parachutes, technology for the production of military training aircraft, technology for the use of ejector seats, technology for the use of military aircraft ground equipment, technology for the use of military distress signalling equipment, technology for the use of military parachutes, technology for the use of military training aircraft

Rv - Some or all of which have subsequently been revoked.

### Country Footnotes

- Arms embargo sanctions in place for Afghanistan apply to those individuals designated under the UNs 'Consolidated List' under UNSCR 1267 designated individuals. All exports for this destination were approved in accordance with the sanctions in place or for use by the International Security Assistance Force (ISAF)/Diplomatic Missions/United Nations/Recognised NGO.
- Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2160 (2014), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	7	£76,311
Total	7	£76,311

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£26,274
ML5	1	£14,076
ML6	2	£961
ML11	1	£30,000
ML21	1	£5,000
PL5017	1	£0

	assault rifles (4).
	components for assault rifles.
T	components for gun laying equipment.
T	components for test equipment for gun laying equipment.
	general military vehicle components (2 licences).
T	military navigation equipment.
	shotguns (4).
	sniper rifles (1).
T	software for the use of military navigation equipment.
	weapon sight mounts.
	weapon sights.

### **SIELs - Incorporation**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	2	£617,035
Total	2	£617,035

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML7	1	£92,035
ML10	1	£525,000

airborne surveillance equipment.  
NBC filters.

The items being incorporated in this destination are ultimately destined for all or some of the following:

France  
Kuwait

### **OIELs (excluding Other OIELs)**

#### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

##### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£8,300
Total	2	£8,300

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

##### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£8,300

equipment employing cryptography (2 licences).

 natural uranium.  
 products containing natural uranium.  
 products containing thorium (2 licences).  
 submersible equipment.  
 technology for the development/production/use of nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation.  
 toxins (2 licences).

## Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£508,000
ML7	2	£253,740
ML11	1	£400
ML21	2	£1,000
PL5017	2	£9,700

T biological agent detection equipment (2 licences).  
 T chemical agent detection equipment (2 licences).  
 T civil explosive detection/identification equipment (2 licences).  
 T civil NBC detection systems (2 licences).  
 T components for chemical agent detection equipment (2 licences).  
 T equipment for the use of chemical agent detection equipment (2 licences).  
 T software for the use of chemical agent detection equipment (2 licences).

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	7	£531,520
Total	7	£531,520

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£420,000
ML10	3	£66,174
ML11	2	£44,556
ML17	1	£790

components for combat helicopters.  
 components for military aero-engines.  
 components for military electronic equipment.  
 components for military utility helicopters (2 licences).  
 components for surface-to-surface missiles.  
 electronic warfare equipment.  
 military robotic equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
 Australia  
 Denmark  
 India  
 Italy  
 Japan  
 Portugal  
 Saudi Arabia  
 Taiwan  
 United States of America

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	air guns, rifles, semi-automatic pistols, shotguns, sporting pistols
2	P	airborne refuelling equipment, components for airborne refuelling equipment, military aircraft ground equipment
3	P	components for combat aircraft
4	P	components for submarines, technology for the use of submarines
5	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment

## Issued

bomb suits.

## Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

#### Country Footnotes

1. Arms sanctions against DRC are currently in place under UN Security Council resolution 1807 (amended by UNSCR 1857 and 1896). The embargo prohibits the supply, sale or transfer of arms and related materiel (and the provision of assistance) to all non-governmental entities and individuals operating in the DRC (subject to strict exemptions for UN/humanitarian end-use). All exports for this destination were approved in accordance with the sanctions in place.

% and number of OIELs completed in 60 working days	100% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### Country Footnotes

1. Arms trade sanctions against Eritrea were adopted by UN Security Council resolution 1907 on 23 December 2009. All exports for this destination were approved in accordance with the sanctions in place.

## Estonia

### Processing Statistics

Median processing time SIELs	16 days
% and number of SIELs completed in 20 working days	67% (2)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	37 days
% and number of OIELs completed in 20 working days	50% (1)
% and number of OIELs completed in 60 working days	50% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£329,200
Total	3	£329,200

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£7,200
ML13	1	£315,000
PL5001	1	£7,000

ballistic shields.  
body armour.  
components for body armour.

general military vehicle components.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights

#### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	14	£22,582,364

Non-military	3	£500,863
Total	17	£23,083,227

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£248,451
ML7	1	£4,848
ML9	1	£300
ML10	10	£22,328,766
ML22	1	£0
PL5017	1	£0

chemical agent detection equipment.  
 components for combat aircraft.  
 components for combat helicopters.  
 components for military training aircraft (4 licences).  
 components for naval engines.  
 components for sniper rifles.  
 general military aircraft components (2 licences).  
 gun mountings.  
 military aircraft head-up displays.  
 military parachutes (2 licences).  
 sniper rifles (31).  
 technology for the use of rifles.  
 weapon sight mounts.  
 weapon sights (2 licences).

### Non-military

### Country Footnotes

1. European Council Common Position 2007/140/CFSP, adopted on 27 February 2007, imposed a ban on the export of items on the Nuclear Suppliers Group and Missile Technology Control Regime lists. Common Position 2007/246/CFSP, adopted on 23 April 2007, imposed an embargo on the export to Iran of arms and related materiel of all types, including weapons and ammunition, military vehicles and equipment, paramilitary equipment and spare parts for the aforementioned. An exception is made for armoured vehicles for use by personnel of the EU and its Member States in Iran. EC Regulation 423/2007, adopted on 19 April 2007 (amended on 10 November 2008 through EC Regulation 1110/2008), made licensable, to Iran alone, goods or technology that could contribute to Iran's enrichment-related, reprocessing or heavy water-related activities; the development of nuclear weapon delivery systems by Iran; or the pursuit by Iran of activities related to other topics about which the IAEA has expressed concerns or identified as outstanding.

Following UNSCR 1803 Common Position 2008/632/CFSP was adopted on 8 August 2008. This put in place further restrictive measures including an additional embargo on certain goods and technology which could contribute to enrichment-related, reprocessing or heavy water-related activities. Further restraint concerning new commitments for public provided financial support for trade, vigilance over the activities of EU financial institutions with banks domiciled in Iran and their subsidiaries, branches and other financial entities outside Iran, inspection of and prior information requirement on certain cargoes to and from Iran. As stated above the corresponding Regulation was adopted on 10 November 2008 - EC Regulation 1110/2008.

All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq or the Multinational Force to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	equipment employing cryptography

## Italy

### Processing Statistics

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	79% (95)
% and number of SIELs completed in 60 working days	98% (118)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	63 days
% and number of OIELs completed in 20 working days	23% (3)
% and number of OIELs completed in 60 working days	31% (4)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

Median processing time OITCLs	49 days
% and number of OITCLs completed in 20 working days	0% (0)
% and number of OITCLs completed in 60 working days	100% (1)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	69	£9,873,258
Non-military	3	£9,388
Total	72	£9,882,646

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	20	£86,494

ML4	3	£36,652
ML5	2	£113,222
ML6	1	£35,000
ML7	5	£1,087,804
ML10	29	£8,295,309
ML11	3	£40,470
ML13	2	£47,055
ML14	1	£18,403
ML16	2	£110,617
ML21	1	£1,395
ML22	2	£837

	body armour (2 licences).
	components for body armour.
	components for combat aircraft (9 licences).
	components for combat helicopters (4 licences).
	components for combination rifle-shotguns.
	components for launching equipment for munitions.
	components for military aero-engines.
	components for military cargo vehicles.
	components for military improvised explosive device disposal equipment.
	components for military navigation equipment.
	components for military training aircraft (2 licences).
	components for military transport aircraft (3 licences).
	components for military utility helicopters (8 licences).
T	components for optical target acquisition equipment.
	components for shotguns.
	components for sniper rifles.
	components for weapon control systems.
T	control equipment for unmanned air vehicles.
	launching equipment for bombs.
	military airborne cargo handling equipment.
	military communications equipment.
T	military communications equipment.
	military helmets (2 licences).
	military improvised explosive device disposal equipment.
	NBC clothing.
	NBC filters (4 licences).
	NBC respirators (2 licences).
T	optical target acquisition equipment.
	revolvers (1) (2 licences).
	rifles (1).
	shotguns (1) (4 licences).
	shotguns (2) (2 licences).
	shotguns (3).
	sniper rifles (1).
	software for the simulation of military operation scenarios.
	sporting rifles (1) (4 licences).
	sporting rifles (2).
	sporting rifles (4).
	technology for the use of software for the simulation of military operation scenarios.
	training equipment for equipment for the use of airborne electronic warfare equipment.
	unfinished products for military aero-engines.
	unfinished products for military airborne cargo handling equipment.
	weapon day and night sights.
	weapon sights (7 licences).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£8,089
PL8001	2	£1,299

components for non-military firing sets.  
 components for nuclear reactors.  
 improvised explosive device detection equipment.

## **SIELs - Incorporation**

### **Issued**

Types of goods on licence	No. of licences	Value
Military	31	£9,840,859
Total	31	£9,840,859

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£2,076,625
ML5	3	£59,224
ML9	1	£5,586
ML10	22	£7,679,814
ML11	1	£18,783
PL5017	1	£826

components for aircraft radars.  
 components for combat aircraft (7 licences).  
 components for combat helicopters (2 licences).  
 components for ground based radars (2 licences).  
 components for launching equipment for air-to-air missiles (2 licences).  
 components for military aero-engines (8 licences).  
 components for military training aircraft.  
 components for military transport aircraft (2 licences) [See footnote 1].  
 components for military utility helicopters (2 licences).  
 components for torpedoes.  
 equipment for the use of torpedoes.  
 military electronic equipment.  
 naval shock mounts.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Afghanistan  
 Austria  
 Brazil  
 Ecuador  
 Germany  
 India  
 Indonesia  
 Morocco  
 Pakistan  
 Saudi Arabia  
 Singapore  
 Spain

Turkey  
United Arab Emirates  
United States of America

# **OIELs (excluding Other OIELs)**

## **Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for military aero-engines, equipment for the production of combat aircraft, equipment for the use of combat aircraft, military aircraft ground equipment, technology for the production of combat aircraft, technology for the production of military aero-engines, technology for the use of combat aircraft, technology for the use of equipment for the production of combat aircraft, technology for the use of equipment for the use of combat aircraft, technology for the use of military aero-engines, technology for the use of military aircraft ground equipment
2	P	components for military utility helicopters
3	P	components for aircraft radars, components for optical target acquisition equipment, components for optical target designator equipment, components for optical target surveillance equipment, components for optical target tracking equipment, components for simulators for aircraft radars
4	P	components for combat aircraft
5	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
6	T	air guns, ammunition for veterinary/tranquillising rifles, assault rifles, blank ammunition, components for air guns, components for deactivated air guns, components for deactivated pistols, components for deactivated revolvers, components for deactivated rifles, components for deactivated semi-automatic pistols, components for deactivated shotguns, components for deactivated sporting pistols, components for deactivated sporting rifles, components for deactivated veterinary/tranquillising rifles, components for deactivated vintage guns, components for pistols, components for replica air guns, components for replica pistols, components for replica revolvers, components for replica rifles, components for replica semi-automatic pistols, components for replica shotguns, components for replica sporting pistols, components for replica sporting rifles, components for replica veterinary/tranquillising rifles, components for replica vintage guns, components for revolvers, components for rifles, components for semi-automatic pistols, components for shotguns, components for sporting pistols, components for sporting rifles, components for veterinary/tranquillising rifles, components for vintage guns, components for weapon sights, crowd control ammunition, deactivated air guns, deactivated assault rifles, deactivated general purpose machine guns, deactivated heavy machine guns, deactivated machine pistols, deactivated pistols, deactivated revolvers, deactivated rifles, deactivated semi-automatic pistols, deactivated shotguns, deactivated sporting pistols, deactivated sporting rifles, deactivated veterinary/tranquillising rifles, deactivated vintage guns, general purpose machine guns, heavy machine guns, inert ammunition, machine pistols, pistols, replica air guns, replica assault rifles, replica general purpose machine guns, replica heavy machine guns, replica machine pistols, replica pistols, replica revolvers, replica rifles, replica semi-automatic pistols, replica shotguns, replica sporting pistols, replica sporting rifles, replica veterinary/tranquillising rifles, replica vintage

		guns, revolvers, rifles, semi-automatic pistols, shotguns, small arms ammunition, smoke ammunition, sporting gun ammunition, sporting pistols, sporting rifles, training ammunition for veterinary/tranquillising rifles, training blank ammunition, training crowd control ammunition, training inert ammunition, training small arms ammunition, training smoke ammunition, training sporting gun ammunition, veterinary/tranquillising rifles, vintage guns, weapon sights
7	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
8	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military training aircraft, unfinished products for military transport aircraft, unfinished products for military utility aircraft, unfinished products for military utility helicopters, unfinished products for surface-to-air missiles, unfinished products for unmanned air vehicles

#### OITCLs

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	10	£182,075
Non-military	5	£50,625
Total	15	£232,700

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£29,605
ML2	1	£76,640
ML3	1	£30,795
ML4	1	£6,980
ML10	2	£15,416
ML11	1	£18,862
ML13	3	£3,709
PL5017	1	£68

body armour (2 licences).  
bomb suits.  
components for assault rifles.  
components for body armour.  
components for general purpose machine guns.  
components for gun mountings.  
components for military training aircraft.  
components for naval light guns.  
components for small arms ammunition.  
equipment for the use of general purpose machine guns.  
explosive ordnance disposal equipment.  
gun mountings.  
military communications equipment.  
military helmets.  
military parachutes.  
semi-automatic pistols (10).  
semi-automatic pistols (15).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£2,345
1C352	1	£20
5A002	2	£11,331
5D002	1	£36,929

animal pathogens.  
chemicals used for pharmaceutical/healthcare production.  
cryptographic software.  
equipment employing cryptography (2 licences).  
software for the use of cryptographic software.

#### OIELs (excluding Other OIELs)

promoting the supply of military goods.

#### Country Footnotes

1. Arms trade sanctions against Lebanon were adopted by UN Security Council resolution 1701, of 11 August 2006 and by European Council Common Position 2006/625/CFSP. Exceptions to the arms embargo cover the supply of arms and related materiel or the provision of assistance authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.

 gun mountings.  
 heavy machine guns (20).  
 launching equipment for anti-armour rockets.  
 weapon sights.

#### SITCLs

Source	Issued	Refused	Revoked
Bulgaria	1	0	0

#### Issued

weapon sights.

#### Country Footnotes

1. The arms embargo against Liberia was renewed by UN Security Council resolution 1521 (2003) and extended most recently until 17 December 2010 by UNSCR 1903 (2009). Strict exceptions to the embargo exist for certain purposes - e.g. humanitarian purposes, goods and assistance programmes destined for the UN peacekeeping mission (UNMIL) or the Government of Liberia.

All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	38	£379,281
Non-military	2	£14,860
Total	40	£394,140

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£10,765
ML3	3	£192,590
ML4	2	£38,221
ML6	3	£6,177
ML9	1	£135
ML10	9	£42,552
ML11	14	£63,297
ML14	1	£21,095
ML22	1	£0
PL5035	1	£4,450

aerial target equipment.  
ammunition for wall and door breaching projectile launchers.  
anti-g/pressure suits.  
assault rifles (2).  
blank ammunition.  
components for aerial target equipment.  
components for all-wheel drive vehicles with ballistic protection.  
components for ejector seats.

components for guided missile decoying equipment.  
 components for military aircraft ground equipment.  
 components for military aircraft pressurised breathing equipment (2 licences).  
 components for military communications equipment (13 licences).  
 components for military flying helmets.  
 components for military training aircraft.  
 components for naval engines.  
 components for tanks (2 licences).  
 general military aircraft components (2 licences).  
 general military vehicle components.  
 gun silencers.  
 T gun silencers.  
 illuminators.  
 military communications equipment.  
 small arms ammunition (3 licences).  
 sniper rifles (2).  
 sporting rifles (4).  
 tear gas/irritant ammunition.  
 technology for the use of military communications equipment.  
 training tear gas/irritant ammunition.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£460
5D001	1	£14,400

chemicals used for general laboratory work/scientific research.  
 software for the use of radio jamming equipment.

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	chaff, chaff equipment, command communications control and intelligence equipment, components for chaff equipment, components for command communications control and intelligence equipment, components for corvettes, components for defensive systems against NBC agents, components for electronic warfare equipment, components for fast attack craft, components for frigates, components for heavy machine guns, components for military distress signalling equipment, components for military inflatable craft, components for military navigation equipment, components for naval acoustic equipment, components for naval communications equipment, components for naval engines, components for naval gun mountings, components for naval radars, components for naval sonar equipment, components for semi-automatic pistols, components for surface-to-air missiles, components for surface-to-surface missiles, control equipment for surface-to-air missiles, control equipment for surface-to-surface missiles, defensive systems against NBC agents, electronic warfare equipment, equipment for the use of corvettes, equipment for the use of fast attack craft, equipment for the use of frigates, equipment for the use of naval radars, equipment for the use of surface-to-air missiles, general naval vessel components, handling equipment for surface-to-surface missiles, heavy machine guns, launching equipment for surface-to-air missiles, launching equipment for surface-to-surface missiles, military distress signalling equipment, military inflatable craft, military navigation equipment, naval acoustic equipment, naval communications equipment, naval electrical equipment, naval electronic equipment, naval engines, naval gun mountings, naval radars, naval sonar equipment, NBC filters, semi-automatic pistols, surface-to-air missiles, surface-to-surface missiles, test equipment for military communications equipment, test equipment for naval radars, test equipment for surface-to-air missiles

2	P	components for armoured repair and recovery vehicles, components for tanks, components for training equipment for tanks
3	P	components for armoured fighting vehicles, components for armoured personnel carriers, components for armoured repair and recovery vehicles, components for command and control vehicles
4	P	general naval vessel components, technology for the use of general naval vessel components
5	T	aerial target equipment, airborne electronic warfare equipment, components for aerial target equipment, components for airborne electronic warfare equipment, components for equipment for the use of aerial target equipment, components for equipment for the use of airborne electronic warfare equipment, components for equipment for the use of military training aircraft, components for military training aircraft, components for test equipment for aerial target equipment, components for test equipment for airborne electronic warfare equipment, components for training airborne electronic warfare equipment, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of military training aircraft, military training aircraft, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of military training aircraft, technology for the use of training airborne electronic warfare equipment, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, training airborne electronic warfare equipment
6	T	aerial target equipment, airborne electronic warfare equipment, aircraft radars, components for aerial target equipment, components for airborne electronic warfare equipment, components for aircraft radars, components for military aircraft navigation equipment, components for military training aircraft, components for military video recording equipment, components for training equipment for electronic countermeasures equipment, components for weapons simulators, equipment for the use of aerial target equipment, equipment for the use of airborne electronic warfare equipment, equipment for the use of aircraft radars, equipment for the use of military aircraft navigation equipment, equipment for the use of military video recording equipment, equipment for the use of training equipment for electronic countermeasures equipment, equipment for the use of weapons simulators, military aircraft navigation equipment, military training aircraft, military video recording equipment, technology for the use of aerial target equipment, technology for the use of airborne electronic warfare equipment, technology for the use of aircraft radars, technology for the use of military aircraft navigation equipment, technology for the use of military training aircraft, technology for the use of military video recording equipment, technology for the use of training equipment for electronic countermeasures equipment, technology for the use of weapons simulators, test equipment for aerial target equipment, test equipment for airborne electronic warfare equipment, test equipment for aircraft radars, test equipment for military aircraft navigation equipment, test equipment for military video recording equipment, test equipment for training equipment for electronic countermeasures equipment, test equipment for weapons simulators, training equipment for electronic countermeasures equipment, weapons simulators
7	P	components for non-military firing sets, non-military firing sets

#### Country Footnotes

- On 31 July 2014, the EU Council adopted further sanctions against Russia. Council Decision 2014/512/CFSP provides for restrictions on the supply of arms and military equipment; on dual use items for military use; on certain technologies for the oil industries; and on access to capital markets for certain financial institutions. Restrictive measures currently in force are set out in Council Decision 2014/659/CFSP and Regulation 960/2014 of 8 September 2014.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£126,589

equipment employing cryptography.

### Country Footnotes

- Arms trade sanctions against Somalia were adopted by UN Security Council resolution 733 in 1992 and were amended in 2002 by Security Council resolution 1425. Resolutions 1356 (2001), 1772 (2007), 1851 (2008) and 1872 (2009) provide for exemptions to the measures for supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use of AMISOM or to be used against piracy, supplies and assistance for developing Somali security sector institutions or the TFG. Procedures vary: some exports must be approved in advance by the Sanctions Committee. All exports for this destination were approved in accordance with the sanctions in place.

T	inertial equipment.
	magnetometers.
	nickel powders.
	radio jamming equipment (2 licences).
T	radio jamming equipment.
	remote sensing imaging sensors.
	software for the development of cryptographic software.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£81
ML7	1	£838
ML21	1	£100

components for chemical agent detection equipment.  
components for civil NBC detection systems.  
software for the use of chemical agent detection equipment.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	5	£129,101
Total	5	£129,101

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£45,279
ML5	1	£3,907
ML10	1	£4,920
ML11	1	£65,569
PL5017	1	£9,425

components for air-to-surface missiles.

components for aircraft radars.  
 components for chaff equipment.  
 components for combat aircraft.  
 components for military communications equipment.  
 equipment for the use of military communications equipment.  
 military communications equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Egypt  
 Gabon  
 Norway  
 Pakistan  
 United Arab Emirates

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	software for the use of test equipment for inertial equipment, test equipment for inertial equipment
2 (Rv)	P	air guns, rifles, semi-automatic pistols, shotguns, sporting pistols
3	P	components for aircraft missile protection systems, components for electronic warfare equipment, military electronic equipment, military video recording equipment
4	P	general naval vessel components, technology for the use of general naval vessel components
5	P	components for non-military firing sets, non-military firing sets
6	P	components for shotguns, shotguns

Rv - Some or all of which have subsequently been revoked.

##### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	air guns, components for air guns, gun silencers, weapon sights

T      armoured fighting vehicles.  
          armoured plate.  
          biological agent detection equipment.  
          chaff equipment.  
          components for air-to-air missiles.  
          components for aircraft radars.  
          components for anti-aircraft guns.

	components for anti-armour missiles.
	components for armoured fighting vehicles (4 licences).
	components for armoured personnel carriers.
	components for chaff equipment (2 licences).
	components for combat aircraft (5 licences).
	components for control equipment for munitions.
	components for explosive ordnance disposal equipment.
	components for ground based radars (4 licences).
	components for guided missile decoying equipment.
	components for large calibre artillery.
T	components for launching equipment for munitions.
	components for military aircraft ground equipment.
	components for military aircraft pressurised breathing equipment.
	components for military cameras.
	components for military communications equipment (2 licences).
	components for military infrared/thermal imaging equipment.
T	components for military training aircraft.
	components for military training aircraft.
	components for military utility vehicles.
	components for military video recording equipment.
	components for naval light guns (4 licences).
	components for naval radars (2 licences).
	components for optical target surveillance equipment.
	components for small arms ammunition.
	components for small calibre artillery ammunition.
	components for torpedoes.
	components for unmanned air vehicles.
	control equipment for unmanned air vehicles.
	equipment for the use of military cameras.
T	equipment for the use of military video recording equipment.
	equipment for the use of weapon sights.
	explosive ordnance disposal equipment.
	military cameras.
T	military communications equipment (2 licences).
	military electronic equipment (3 licences).
T	military image intensifier equipment.
	military image intensifier equipment (3 licences).
	military infrared/thermal imaging equipment.
	military underwater remotely operated vehicles.
	military video recording equipment.
T	military video recording equipment (2 licences).
T	NBC clothing.
T	NBC filters.
	non-sporting shotgun ammunition.
T	nuclear radiation detection equipment.
T	optical target designator equipment (2 licences).
	shotguns (1) (2 licences).
	shotguns (5).
T	software for the use of biological agent detection equipment.
	software for the use of command communications control and intelligence software.
	software for the use of military communications equipment.
	technology for the development of unmanned air vehicles.
	technology for the production of naval radars.
	test models for the development of combat aircraft.
T	unfinished products for military training aircraft.
T	weapon day and night sights (3 licences).
T	weapon night sights (3 licences).
T	weapon sight mounts.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

#### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

##### Issued

Types of goods on licence	No. of licences	Value
Military	3	£73,173
Non-military	4	£6,568,430
Total	7	£6,641,603

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£7,348
ML7	1	£59,625
ML17	1	£6,200

T  
cloth treated for signature suppression for military use.  
clothing treated for signature suppression for military use.  
military improvised explosive device disposal equipment.  
NBC clothing.

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£4,215,000
5D002	1	£2,350,000
6A003	1	£3,000
8C001	1	£430

cryptographic software.  
equipment employing cryptography (2 licences).  
imaging cameras.  
software for the use of equipment employing cryptography.  
syntactic foam.

## Refused

	Count
